

Coronavirus (Covid-19): Shooting Ground Policy

As we take our first early steps away from full lockdown due to the pandemic measures recommended by government, a few notes here on how Glenzier Sporting Limited plans to proceed.

This will, of course, be a changing and evolving situation, and likely to last for some time yet. Our policy here will be kept under review, operating in sensible liaison with the owners and staff of the Whithorn Estate and responding in timely fashion to future government coronavirus advice.

Some General Points:

- Main **access roads** on to the estate are protected by security gates — access is, therefore, very closely regulated in any case.
- Visitors to the shooting ground have a **dedicated car parking area**, separate to all other vehicles/meeting points on the estate (this is normal procedure for all shooting clients).
- All teaching, fitting and testing activity is **by appointment only** — the shooting ground is not open to general, unaccompanied activity (all movements on to, within, and off the ground are accompanied and carefully directed).

Covid – 19 specific measures:

- Naturally, all shooting takes place in the open. Social distancing measures will be in place (currently 2.0 meters).
- All main aspects of instructor/client interaction should take place more or less as normal (respecting distancing).
- Where a gun is shared or passed, for whatever reason, personal protection measures will apply as necessary (i.e. PPE and relevant decontamination procedures).
- Where activity necessitates detailed shotgun measuring, this is still likely to be done indoors (fitting sessions, for example) — PPE, distancing and decontamination procedures will apply here, also.
- Hand-cleansing/washing facilities are available to clients at any time.
- Additional time will be factored in to shooting sessions to account for extra-ordinary safety measures during this current period — clients will never be hurried.
- If guns are to be tested (patterning, chokes, cartridge loads, convergence, etc.) arrangements will be made for gun collection and pick up off the estate for the duration of these special measures.

Many thanks for your interest and co-operation. Ask if there is anything you want to know. Now, let's crack on sensibly and get on with what we all need to do.
